

Wendy Jo Coones directs the Exhibition Strategies Division at the Department for Image Science at the Danube University in Krems, Austria. She received a fine arts degree in New Genres at the San Francisco Art Institute. After receiving an M.Ed. in Educational Research & Philosophy, she began working in museums as an exhibition developer of international cultural and scientific exhibits. Institutions where she has worked range from a Science & History Museum in Texas, a Space Science Center in California to the Max Planck Institute for the History of Science in Berlin. Since 2005 she has been on the academic staff at the Department for Image Science responsible for curricula development, teaching working professionals, and support of research initiatives. She is responsible for master of arts programs related to digital cultural life, its histories and futures and is currently primary coordinating staff for an EU-funded Erasmus Mundus European Master of Excellence program in Media Arts Cultures.
